

Our specialties

Cosmetic

Cosmetic procedures can dramatically improve your smile.

- Whitening
- Porcelain inlays and onlays
- Veneers
- Bonding
- Replacement crowns

Reconstructive

“Missing teeth are linked to a poorer diet. Quality of life clearly suffers when individuals are forced to limit food choices, and the foods chosen do not provide optimal nutrition.”

—U.S. Surgeon General’s Report

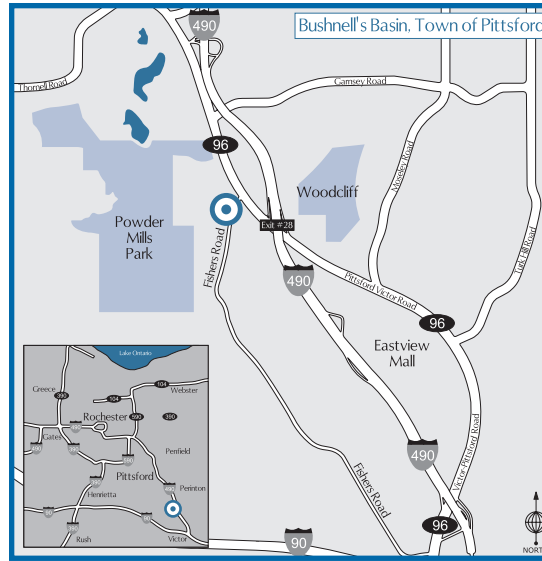

- Dental implants
- Bridges
- Dentures

Preventative

“Over 50% of 5-9 year olds have at least one cavity. This increases to 78% among 17 year olds.”

—U.S. Surgeon General’s Report

- Fluoride treatments
- Home care and cleanings
- Fissure sealants to prevent tooth decay
- Fillings or restorations

Patients are people, not numbers.

We understand that some patients require a little extra attention to alleviate the stress of having dental work or just appreciate having a thorough understanding of every procedure. Meeting the personal needs of each patient is our commitment to you. We want to be your dental office for life and will do everything we can to earn and maintain your trust.

When you visit our office, here's what you can expect:

- **We'll listen.** You can talk to us without fear of judgment. Whether the matter is diagnosis or billing-related, if it's important to you it's important to us. There is no such thing as a dumb question.
- **We're honest.** You can be assured of our complete honesty and integrity in our diagnoses and business practices.
- **We're available.** We're available when you need us—early morning, after hours and weekends, if necessary. Just call.

Welcome to our practice!

Choosing a dentist to care for your family is an important decision. At Kenneth Tirone, DDS, our goal is to provide a quality, comfortable experience for our patients of all ages. We appreciate you considering our office and the opportunity to work with you to provide personal care and attention for all your family's dental needs. Our pledge to you: dental care beyond the chair.

Meet Dr. Ken

A native Rochesterian, Dr. Ken Tirone graduated from New York University, College of Dentistry, in 1991. Upon completion of his residency at the former Genesee Hospital, Dr. Tirone spent several years with the Wasyl Pluta Oral Health Center as an attending dentist. During that time, he gained exposure to many special patient concerns and a wide variety of oral health issues.

Following many years in a suburban group practice, in February 2005 Dr. Tirone opened his own practice specializing in family dentistry, reconstructive and cosmetic procedures.

Dr. Tirone is a member of American Dental Association, New York State 7th District Dental Association and Monroe County Dental Association.
